### **Situation Overview**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.
